

# PRESS RELEASE REGARDING CURRENT AUGUST 2020 LIGHTNING COMPLEX FIRES

Rancho Adobe Fire Protection District, covering Penngrove, Cotati, and Liberty Valley, is maintaining all three stations fully staffed and equipped in order to respond to day to day emergency needs. Our additional equipment and staffing is working a number of the fires in Sonoma County and beyond without impacting our responsibilities to our local community.

There have been a number of requests regarding information on evacuation orders. RAFD citizens are located in Zone 5.

At present none of the fires in Sonoma County are threatening our District's citizens and there are no evacuation orders or warnings near our zone. The best place for Sonoma County evacuation zone information is located on the Sonoma County Emergency website: <https://socoemergency.org/>
