# Five Year Budget Projections

Rancho Adobe Fire Protection District has operated responsibly for many years, and has been an excellent steward of the public's trust. Future needs for wage increases, new engines, overdue capital improvements to stations, and increased demand on services continues to impose challenges to budgets. The District will continue to explore all of the following to control costs and increase revenue:

- Explore the efficiencies gained by consolidation with neighboring districts and departments.
- Work to ensure that the Graton Casino mitigation funds are continued for another five-years.
- Ask SSU to begin paying for services it has long enjoyed at no cost.
- Ask Green Music Center to also pay its fair share for services.
